

Distribution List Management

NOTE: You must be setup as the distribution list manager to manage a list.

- 1.) Open up the address book in Outlook. This can be done by clicking on the Address Book on the menu bar at the top using **Ctrl+Shift+B**.

- 2.) Search for the Distribution List that you maintain. If you are having problems finding it, try changing "Global Address List" to "All Groups" in the pull down for "Show Names from the."
