

LAN Vision's AccessAnywhere Installation Instructions:

1. Open the explorer browser. (Must use Internet Explorer)
2. Go to the following web site: [lvaa.musc.edu](http://lvaa.musc.edu)
3. The install process will begin automatically
4. In the Security Warning window select "yes"
5. This will install the Java client.
6. In the Security Warning window select "install" or "Start"
7. If you get another Security Warning window click "Start"( this will happen on some PCs not all)
8. In the Java Application manager Box, click "Start"
9. The application should run. To exit, click "exit".
10. To add a shortcut to the desktop and the start menu, run explorer again, go back to [lvaa.musc.edu](http://lvaa.musc.edu) and it should prompt you to install these shortcuts.
