

## **Training Room Image Setup Instructions**

1. Boot pc up with Training Room boot disk.\*\*
2. When prompted, use your clinlan user account and password.
3. At the W:\GHOST40A> prompt. Type “train2k” or “trainxp” no parenthesis. This will start the image.
4. When the image is done. Remove the boot disk and reboot.
5. Log in to WinXP/2000 with the appropriate username and password\*\*.

If you are setting up multiple machines you will need to change the computer name. Example: Train1, Train2, Train3, etc...  
The image resides in the [\\s2\ghost\ghost40a](#) directory.

\*\*You can get the training room boot disk, local administrator account and password from your Manager or Jo Wieters.
