

Pardon our dust

Medical University of South Carolina Capital Improvement Project Update

Project Name: College of Dental Medicine Building A&E

Project Number: 9732

Project Description: Development of schematics for the construction of a new building consisting of 96,000 square feet. This new facility will house only the clinical and research activities of the College.

Construction Contract Amount: To be determined

University Project Manager: Boyd Wood – 792-2490

University Project Inspector: Not assigned at this time

Architect and Engineering Firm: LS3P Associates LTD and Southern Management

Contractor: Not selected at this time

Contract Start Date: First step of the design process to begin in September 2002

Substantial Completion Date: To be determined

What's Happening:

- The design team has produced the schematic drawings and the users are reviewing these drawings to confirm program compliance.
- Following review of the drawings, estimates will be prepared and fundraising should begin.
- The preliminary schedule calls for the estimated completion of construction to be February 2007.
